

Seratone® Vertical Solutions consist of a range of pre-finished panels, jointer options and accessories. The panels are pre-finished wall and ceiling panels manufactured on a lightweight, high density fibreboard.

APPLICATIONS

There are two separate Seratone® palettes, specifically designed to complement other contemporary materials such as timber, wood veneer, laminates, glass, granite, steel and paint, as well as each other. Seratone® Classics utilises a 120 micron multi-layered polyurethane system. The Seratone® Classics palette are shades of whites, in a choice of gloss or satin finish. Seratone® Metallics are coated with 200 microns of high grade interlocked automotive finish with greater film builds than used in the automotive industry. The Seratone® Classics and Metallics have a smooth glass like finish, providing a tough, durable non-porous surface that easily resists marks, stains, steam or moisture. These panels can be used in dry, wet or hygiene area applications.

Seratone® Vertical Surfaces are ideal for:

- **Shopfitting and commercial applications**
- **Wall Panelling and Partitioning**
- **Bathroom and laundry applications in new homes and renovations**

Although Seratone® Vertical Solutions are ideal for use in wet areas, this material must not be immersed in water for lengthy periods nor should it be continuously exposed to saturated moisture conditions.

Decors & Patterns

Refer to current Seratone® Vertical Solutions brochure for decors and patterns available.

Aluminium Jointers

Anodised and colour matched aluminium jointing options in 9 jointer profiles.

Product Characteristics

Finishes	Gloss, Satin (Finishes vary by range)
Colours	Refer to product brochure for details
Thickness	4.5mm (Nominal)
Weight	4.4kg/m ² approx
Decorated	One Sided
Core	Brown
Sheet Dimensions (Sheet sizes vary by range)	2400mm x 900mm 2400mm x 1200mm 2700mm x 1200mm

WHEN SPECIFYING

Material shall be Seratone® Vertical Solutions as supplied by The Laminex Group. Colour and/or pattern shall be in Finish.

CARE AND CLEANING

Seratone® Vertical Solutions is easy to clean. Clean the sheet surface with cleaning products such as JIF Powerspray®, Sunlight Liquid®, Ajax Spray 'n' Wipe® – multipurpose kitchen antibacterial, bathroom antibacterial, Handy Andy®, bleach. Do not use abrasive cleaners, waxes or polish on the surface.

SITE WORK NOTES

Storage & Transport

Sheets should be transported flat with minimum flex. Bulk stocks of Seratone® Vertical Solutions should be stored flat on pallets and covered with a polythene type sheeting to avoid dust penetration. Lift sheets carefully. Do not slide on decorative surface or use as a work surface. Take care not to damage the bottom edge of the panel if installing in a wet area situation.
